Principal Faculty

Suean Pascoe- Senior Ultrasound Training Solutions Faculty.
(B.App.Sc. (MRT), GradDip MedUS, AMS, Cert IV workplace training)

For over 3 years, Suean has been teaching specialist point of care ultrasound to physicians of all disciplines. Suean Pascoe is an accredited medical sonographer with over 12 years experience. Suean has been an independent teacher and locum sonographer since 2003. In that time she has worked throughout Australia and New Zealand in a number of public and private hospital settings, her flexible approach and deep knowledge of a range of modalities have seen her in great demand.

Oriana Tolo- Senior Ultrasound Training Solutions Faculty.
(B.App.Sc (Med Rad), GradDip MedUS, AMS, Cat 1 workplace training)

For over 3 years, Oriana has been teaching specialist point of care ultrasound to physicians of all disciplines. Oriana Tolo is an accredited medical sonographer with over 14 years experience and has mastered a wide range of ultrasound modalities and provided in-house sonographer training. She has worked at a leading musculoskeletal imaging specialist centre that has a 75% musculoskeletal workload with the remaining 25% covering all other modalities. Oriana specialises in paediatric and musculoskeletal ultrasound.

Dr Rajesh Singh- Expert Surgeon.
(BSc, MBBS- Honours. University of New South Wales, Australia. MS Ortho-Distinction. University of Malaya, Malaysia. Australian Orthopaedic Association Accredited Subspecialty Fellowship. Adelaide, Australia)

A senior clinician and surgeon with qualifications in Orthopaedic Surgery, Anatomy and Skill Education, Rajesh has extensive experience using point of care musculoskeletal ultrasound. His surgical training has enabled him to develop better techniques and protocols for ultrasound guided procedures. He is the founder of that area of expertise at the National University of Malaysia. In addition to its use in clinical practice, he runs research trails to elucidate the fundamental processes of orthopaedic disorders, using high resolution point of care ultrasound. His most current work is on the correlation between tissue plane interfaces and their ultrasound appearance in relation to accurate and painless Platelet Rich Plasma injection delivery.
